Niedermeier & Whitehead

Werner Niedermeier and Gareth Whitehead are two of the rising stars of the European techno and house scene. Successful producers, dj's and label heads in their own right, the duo are now collaborating on what looks like being one of the most exciting musical partnerships in recent times.

Now based in the UK, Werner Niedermeier will need no introduction to those familiar with the European techno and house scene. Werner boasts a wealth of experience with over fifteen years as engineer, producer, DJ, label boss and artist.

He has appeared on labels such as Supplement Facts, Blitz, Wandering (Mojuba), Room With A View, collaborates with Igor Tchkutoua (Pig & Dan, Cocoon), Sefty (Soul Camp) and as JC Freaks (with Anthea from Phonica).

His music is consistently backed and charted by an impressive number of major players including Luciano, Kabale und Liebe, Anja Schneider, M.A.N.D.Y, Julien Chaptal, Thomas Schumacher, Konrad Black, Audiofly, Danny Tenaglia, Shlomi Aber, Luke Solomon and X-Press 2.

Gareth Whitehead is a vastly experienced producer, remixer, DJ and artist that has established his own signature brand of deep and dubby tech-house and minimal. After many years of underground success, Gareth set up techno label Edit-Select with Soma legend Anthony Scott (Percy X). "Asperity", their first release was an outstanding underground success, and was supported by Richie Hawtin, Ricardo Villalobos, Derrick May, Joey Beltram, James Ruskin and many more.

Gareth then went on to set up Bulletdodge Records as a conduit for his prolific output, mainly concentrating on tech-house and minimal but never afraid of progression and experimentation. The label has grown to be ubiquitous on Beatport charts thanks to massive support from Richie Hawtin, Dubfire, Laurent Garnier, Christian Smith, Ben Sims, Konrad Black, Martin Landsky, Tadeo, Thugfucker and Anderson Noise plus many more.

They have already secured successful Ep's on Resopal Schallware, BCBtec and will see them release on Bulletdodge Records, Broque, Safari Numerique and Frank Lorber's Nummer Schallplatten in 2010.

The pair have already been supported by Slam, Bryan Zentz, Josh Wink, Laurent Garnier, Paco Osuna, Pig & Dan, Chris Liebing, James Zabiela, Deetron, The Advent, Phil Kieran, Jamie Anderson, Someone Else, Dubfire, Alland Byallo, Danny Howells, Emerson Todd, Arnaud Le Texier and Timo Maas plus many more.
